- (f) Water Procurement

MP-5

WORK ITEMS

MP-5.01 Mobilization

All work covered by this section will be paid for at the contract lump sum price for "Mobilization". The lump sum bid price shall not exceed 3% of the total project bid.

Partial payments for the item of "Mobilization" will be made with the first and second partial pay estimates paid on the contract, and will be made at the rate of 50% of the lump sum price for "Mobilization" on each of these partial pay estimates.

MP-7.01 Sanitary Sewer Pipe Inspection (CCTV)

Method of Measurement

The quantity of Sanitary Sewer Pipe Inspected (CCTV) to be paid for will be the actual number of linear feet of sanitary sewer line inspected by pipe size which has been properly incorporated into the completed and accepted work. Pipe length shall be measured by actual linear feet inspected measured along the pipe center line.

Basis of Payment

The quantity of Sanitary Sewer Pipe Inspected (CCTV) will be paid for at the contract unit price for each size of pipe as shown in the Bid Schedule. Price and payment shall constitute full compensation for furnishing all equipment, tools, labor and materials to complete the work as specified, including site restoration and data submittal.

MP-7.02 Sanitary Sewer Pipe Inspection (Sonar)

Method of Measurement

Section IX - Measurement and Payment

The quantity of Sanitary Sewer Pipe Inspected (Sonar) to be paid for will be the actual number of linear feet of sanitary sewer line inspected which has been properly incorporated into the completed and accepted work. Pipe length shall be measured by actual linear feet inspected measured along the pipe center line.

Basis of Payment

The quantity of Sanitary Sewer Pipe Inspected (Sonar) will be paid for at the contract unit price for each size of pipe as shown in the Bid Schedule. Price and payment shall constitute full compensation for furnishing all equipment, tools, labor and materials to complete the work as specified, including site restoration and data submittal.

MP-7.03 Sanitary Sewer Pipe Cleaning

Method of Measurement

The quantity of Sanitary Sewer Pipe Cleaned to be paid for will be the actual number of linear feet of sanitary sewer line cleaned by pipe size and level of cleaning which has been properly incorporated into the completed and accepted work. Pipe length shall be measured by actual linear feet cleaned measured along the pipe center line.

Basis of Payment

The quantity of Sanitary Sewer Pipe Cleaned will be paid for at the contract unit price for each size of pipe and level of cleaning as shown in the Bid Schedule. Price and payment shall constitute full compensation for furnishing all equipment, tools, labor and materials to complete the work as specified, including site restoration. Only heavy or light cleaning will be paid per pipe segment - not both. Heavy cleaning bid price shall include any ancillary light cleaning attempts.

MP-7.04 Locate and Mark Buried Manhole or Pipe Defect

Method of Measurement

The quantity of markings to be paid will be the actual number of markings performed in accordance with the Technical Specifications and as approved by the ENGINEER.

Basis of Payment

The quantity of markings will be paid for at the contract unit price for each. Price and payment shall constitute full compensation for furnishing all

Section IX - Measurement and Payment

equipment, tools, labor and materials to complete the work as specified.
