

## ***NOTICE REGARDING YOUR SEWER BILL***

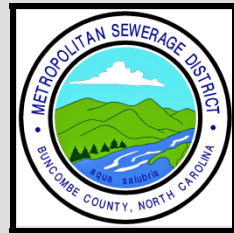

This is to notify you that on June 10, 2026, the Metropolitan Sewerage District (MSD) Board approved a 7.0% increase in MSD sewer service rates. Typical residential customers will see a \$2.72 per month increase in your bill. These rates become effective July 1, 2026. For further information about MSD or rates please check our web site [www.msdbc.org](http://www.msdbc.org).

MSD's current monthly bill is significantly less than the southeast regional average. The rate adjustment is necessary to fund collection system rehabilitation and treatment plant upgrades. Since 1991, MSD has invested over \$600 million in our treatment and collection systems, with another \$795 million planned in rehabilitation and upgrades over the next ten years.

As a result of this program, MSD has greatly enhanced the water quality of the French Broad River by reducing sanitary sewer overflows (SSO's) by 90% and by using new technology to increase treatment capabilities. This capital reinvestment program further advances MSD's environmental leadership within our community.

\*1 CCF = 748 gallons

*Please disregard this notice if you have a septic tank*
